* Non-member individual pricing applies to individuals using subscriptions to ACM journals and magazines for personal use (institutions are ineligible for non-member individual pricing).

† Non-member institutional pricing applies to institutions (academic libraries, government, & corporations). Access is to current subscription year only, and there is no archival access.

Special Interest Groups (SIGs)

Special Interest Groups are devoted to specific computing areas, and many SIGs publish conference proceedings and newsletters. Subscribers benefit from specialized information, coverage of the latest events and conferences, and in-depth analysis of issues that general-interest publications often can't provide.
